EDUCATION

O P JINDAL UNIVERSITY
• JUNE 2024
B. Tech in Metallurgical engineering
7.16 CGPA.

GOVT. POLYTECHNIC PUNE
• JUNE 2018
Diploma in Metallurgical engineering
61.92 %.

S.E.K VIDHYA MANDIR
PACHANGRI
• JUNE 2015
10th SSC Board
86.20 %

KEY SKILLS

Heat treatment.
Good communication
Problem solving
Team management

INTERESTS

Reading books
Travel
Listening Music

PROFILE

Metallurgical engineer with 7.6 years of experience in the automobile manufacturing industry. Skilled in working with raw materials, heat treatment processes, lab testing, and identifying the root causes of material failures. Experienced in optimizing heat treatment processes to enhance material strength and ensure the quality of automotive components. Proficient in material testing to detect defects and improve product reliability. Strong background in failure analysis to determine root causes and recommend preventive measures. Also experienced in **supplier management** and conducting supplier audits as per the **CQI-9** process to uphold quality standards in heat treatment operations.

EXPERIENCE

SENIOR ENGINEER • DEC 2021 – PRESENT

Hirschvogel Components India • Sanswadi Pune

Quality Management laboratory (QML)

- Conduct on-time inspections of heat-treated materials, including ISO annealing, normalizing, induction hardening, carburizing, and friction welding, ensuring compliance with customer specifications, along with raw material testing
- Manage and develop special process suppliers (e.g., heat treatment, coating, painting) and conduct supplier audits as per CQI standards
- Development and Management of controlled cooling process to meet desired customer requirements.
- Management and Maintenance of sample preparation equipment's Management
- Management, Calibration and Maintenance of test equipment's
- Failure analysis
- Development parts lab reports i.e. ISIR/PPAP by performing required test such as Fiber flow, Bend test, Tensile test, etc.
- Maintaining and improving 5S structures in Lab

JUNIOR ENGINEER • DEC 2019 – DEC 2021

Kalyani technoforge Ltd • Ranjangaon Pune

Metallurgical Quality Control (MQC) Lab

-
- On-time inspection of heat-treated material such as Iso Annealing, Normalizing, Quenching and Tempering, etc. as per customer specifications.
 - Making metallurgical test certificates and PPAP documents.
 - Maintaining 5S in Lab.
 - Handling customer complaints with the help of team.

DIPLOMA ENGINEER TRAINEE • JULY 2018 – DEC 2019

APQ HEAT TREAT SERVICES • Chakan Pune

Metallurgical Lab

- Doing inspection of Quenching and Tempered material.
- Sample preparation. Such as cutting, hot mounting, polishing, lapping, and Etching.
- Microscopic analysis.
- Making metallurgical test certificates.

DECLARATION

I do hereby declare that the particulars of information and facts started herein above are true, correct, and complete to the best of my knowledge.
