Objective

Aspiring Mechanical Engineer with hands-on experience in locomotive assembly and quality operations at GE Aerospace and Cummins India. Seeking a challenging role in manufacturing or locomotive operations to contribute through safety compliance, continuous improvement, and operational excellence.

Experience

- GE Aerospace** 16 OCT 2024 - Present
On-the-Job Training (OJT)
 - Worked on Indian Railways WDG4G & WDG6G locomotive projects.
 - Performed WAG (Wheel, Axle & Gear) assembly operations.
 - Executed gear assembly, wheel pressing and journal bearing assembly.
 - Raised and closed EHS safety concerns through system tracking.
 - Ensured SOP/WI compliance across shop-floor operations.
 - Implemented Kaizen & continuous improvement activities.
 - Conducted Root Cause Analysis (RCA) for daily defects and implemented corrective actions with team
- Cummins India limited** 8 SEP 2023 - 7 SEP 2024
Diploma Engineer Trainee (DET-1)
 - Worked as a Diploma Engineer Trainee in the engine assembly division.
 - Assembled critical engine components including Lube Oil Bypass Corrosion Head, STC (Step Time Control), and PCN (Piston Cooling Nozzle).
 - Worked on Cummins VTA-28 engine, domestic K38 engine, export K50 engine, gas engines, and construction engine models.
 - Involved in engine sub-assembly and final assembly operations.
 - Followed SOPs, quality standards, and safety guidelines during all assembly activities.

Education

- Government Polytechnic Deeh Sadar Unnao** 2023
Diploma in Mechanical engineering
75%
- Shatrughan Singh Balika Inter College** 2020
Intermediate
70%
- Shatrughan Singh Balika Inter College** 2018
Highschool
73%

Skills

- Root Cause Analysis (RCA) & Problem Solving
- SOP / Work Instruction Compliance
- 5S & Kaizen Implementation
- Quality and safety Management

Projects

- 3D Working Model of Differential Gear Assembly

- Designed and developed a functional 3D working model of a differential gear system.
- Demonstrated power transmission and speed variation between inner and outer wheels during turning.
- Explained torque distribution mechanism in automotive drivetrain systems.
- Enhanced practical understanding of mechanical transmission systems.

Achievements & Awards

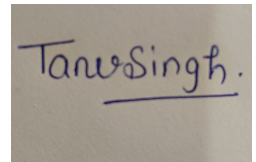

- Awarded “Delivery with Focus” by GE Aerospace for excellence in wheel press assembly and machining process.
- Recognized as Quality Point Leader in TBWS system for maintaining high quality standards.
- Successfully implemented Kaizen projects on sub-assembly line to improve productivity and reduce defects.
- Received EHS Star Cap Award for exemplary adherence to safety, health, and environmental standards.

Languages

- Hindi
- English

Trainings And Courses

- CNC Milling Programming – MSME Centre, Kanpur (1 Month)
- Summer Industrial Training – Shri Mahalakshmi Industries, Udyog Nagar, Kanpur (1 Month)

A photograph of a handwritten signature in blue ink on a light-colored surface. The signature reads "Tanu Singh." with a horizontal line underneath the name.
